

# Let it Fall

by Amal Ali

The pitter patter on the rooftops  
Incessant  
Un-ending  
Create a rhythm  
The Beat  
As the music of the world  
Goes on  
And on

The greatest Being  
Our strongest of forces  
Cannot stop the  
Beautiful  
Harmless  
Wet, Wet  
Rain  
From doing what it does best:

Showing the World  
That even the most  
Fragile of elements  
Can live free  
Strong  
And Forever.
