From Peer's notes : " The old house of Mr. Trow stood about 20 rds. south of the present house, which was built in 1835.(West Parish) The following year the new road was built, which is about one mile from the Andover and Tewksbury line to the North Tewksbury meeting-house. The line runs through Mr. Trow's house and through their oven. The old house was Uriah Griffin's place of residence, and when Mr. Trow went into it after it had been unoccupied for about six months, he found an adder in the upper room. "
